MG900

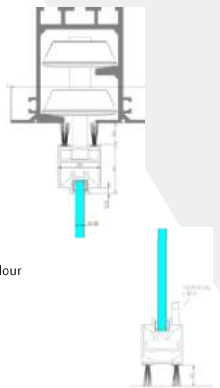

Single glazed sliding panels with crittall bars

Delighted to be able to offer our MG900 single glazed sliding folding partition with crittall glazing.

Individual or hinged panel single glazed sliding system with the option of with crittall bars. This single glazed sliding system can achieve 34dB.

The benefit of the MG900 the panels work in the same way as conventional movable walls and can be either single or double point suspension. With the slim back painted border you have clear view visual lines allowing a superior light flow around the office, cost-effective installation, flexibility in the work environment as well as the simple fact that they look elegant and classy.

Not only these, but they also offer exceptional sound reduction allowing for privacy to be had amongst clients or for important internal meetings.

Key Facts:

- Acoustic reduction from 34dB
- Top hung
- Panel widths 450mm to 1200mm
- Height up to 3000mm
- Crittall bar designs to suit
